Media Release

13 July 2011

First Stage of Raceway Redevelopment

After many months of planning and negotiations the first step in a multimillion dollar government funded redevelopment will begin.

18 July will see works begin at Barbagallo Raceway Wanneroo with the demolition of one of the club's iconic infrastructures.

The infield tower which was built in the mid 70's will be removed to make way for a new pit and paddock facility. The current facility has served the club and motor sport admirably but the growth and development of one of WA's major attractions, the V8 Supercars, has meant a new facility was merited.

Stage one of the redevelopment will involve modern infield garages and paddock facilities catering to our sports elite, however WA Motorsport is also a winner, not only by confirming the Trading Post Challenge for the next four years but in providing national class facilities for long into the future.

Phase one will be completed in time for the 2012 event and will present a new and exciting spectacle for racers and spectators.

For further information contact Malcolm Bulley at malcolm@wascc.asn.au or telephone 08-9306 8022.
