All scrutiny will be in the Scrutineering Shed and **STRICTLY** limited to one session on the day of each Round at the venue as per the event schedule:

- a) Your helmet, apparel must be presented for inspection and approval at time of scrutiny.
- b) No automobile may participate in any practice session or Battle unless it has passed a safety check by the Scrutineers on the day of the event. Automobiles must be presented in the condition that they will be participating in, and in a very clean, tidy and presentable state.
- c) Any automobile which, after approval, is dismantled or modified in any way which might affect the safety of the automobile or raises questions as to its eligibility, or is involved in any accident having similar results, must be submitted for scrutiny.
- d) Any automobile or competitor may be prohibited from practice or the competition for safety reasons.
- e) The Clerk of Course may require any automobile involved in an accident to be stopped and checked during any competition.
- f) All automobiles must have their fire extinguisher/on board systems ready for checking.
- g) Registration plates may be removed.
- h) Front and rear bumpers must be attached to the automobile at the start of the event.
- i) Tow points must be marked on the automobile front and rear indicating where the Recovery Crew can attach equipment to tow the automobile.

#### **18. Competition Numbers**

Competitors may reserve a competition number (if not already taken) between 2 and 999 for the current Series. If a competitor has not chosen a number, the organisers shall allocate a number on an event by event basis. Competition numbers must be purchased prior to the event, be fluorescent yellow in color, 180mm high and displayed on the front passenger side windscreen. These can be purchased from Drift Bunny Decals. Numbers must be fitted prior to scrutineering. Failure to have correct format Numbers may result in exclusion from event,

#### **19. Series Banners**

An outlaw series front windscreen banner will be supplied at the event and must be displayed at all times. Any series sponsors stickers given out at the events must be displayed on the windscreen banner when asked to by the organisers. Failure to do so will deem that competitor ineligible to receive any series prizes.

Drugs in Sport (Safety Testing) Policy as published on the CAMS website. Consumption of alcohol in the paddock, pits or any section of the competition venue/course under the control of the Officials is forbidden until all competition is concluded each day. Accordingly, any holder of a CAMS 'Competition' or 'Officials' license (or equivalent license issued by another ASN) may also be tested for the presence of alcohol by a CAMS Accredited Testing Official (CATO) in accordance with the CAMS Standard Operating Procedure for Breath Alcohol Testing.

## **21. Awards**

Trophies only will be awarded to the first three place getters in the Driftwest Battlefest. Awards will be presented at the conclusion of the event at McCracken House.

## **22. Protests**

Judge's decision will be final, any correspondence, verbal, electronically etc. may result in disqualification, at the discretion of the Clerk of course

# **CHAPTER 2 - General Safety Requirements**

All automobiles in drift events must comply with Schedule A of "General Requirements for Cars and Drivers". All registered automobiles in drift events must comply with articles 1, 7, 8, 9, 10, 11, 12, 15 & 17 of Schedule B of "General Requirements for Cars and Drivers", unregistered automobiles must comply with all articles of Schedule B of "General Requirements for Cars and Drivers".

## **1. Apparel**

Refer to CAMS Manual of Motorsport General Requirements, Schedule D Section 2.4 for Club activities. A minimum of a one-piece single layer race suit is required for competition activities.

## **2. Seat belts and Harnesses**

*Refer to current CAMS Manual of Motor Sport Schedule I for acceptable harness types. A lap sash style belt is the minimum required for drifting, however harnesses will be allowed providing they comply with the above Schedule requirements.*

## **3. Fire Extinguisher**

Refer to current CAMS Manual of Motor Sport Schedule H for acceptable types and minimum sizes.

## **4. Tyres**

Wheel size is open but must not protrude beyond the bodywork far enough to become dangerous. Front and rear tyres must be treaded and of radial construction as well as D.O.T. and ADR approved. Re-treaded tyres are not permitted.

## **5. Roll Over Protection**

All open automobiles (i.e. automobiles without a supporting structure between the top of the A Pillars and the rear window) must be fitted with Roll Over Protection compliant with CAMS Regulations. Roll Over protection devices, constructed outside the parameters of those of the CAMS ROPS Regulations may be incorporated in closed automobiles. However, if not registered with CAMS and displaying evidence of CAMS approval, the automobile will be recorded by scrutineers as **not** having a roll over structure fitted that is compliant with CAMS Regulations. A list of those automobiles will be provided to the Stewards for our records. This may not prevent the automobile from entering the competition as roll over protection is only highly recommended for closed automobiles. For roll over protection systems approved by CAMS see Schedule J of the current CAMS Manual of Motor Sport.

Automobiles that have Roll Over Protection devices, regardless of whether they are CAMS approved or not, must be fitted with compliant padding in the driver head impact zone.

## **6. Battery**

Having, on the external coachwork, a blue triangle of sides 150mm, this indicates the position of the battery.

## **7. Noise Level**

All automobiles must be adequately muffled. The maximum exhaust noise level permitted for automobiles in this event is 95 dB(A).

## **8. Cameras**

The fitment of a video camera will be mounted as per the current CAMS Manual of Motor Sport and the automobile must be examined and approved by the Chief Scrutineer prior to the automobile participating in any track activity. No helmet mounted cameras will be permitted. Drone filming will be taking place as per CAMS UAV requirements.

## **9. Competitors Conduct**

No body part may protrude from the automobile and door opening will not be permitted whilst participating in the event.

## **10. Flags**

The following lights/flags will be used during this event:

- Yellow Flag**                      This will be used to indicate a problem ahead – significantly reduce speed.  
**Red Flag**                              This will be used to indicate a severe problem ahead and the competitor must slow immediately and prepare to stop. The run has been stopped.

## **11. Vehicle Breakdown**

In the event your automobile breaks down or leaves the circuit and you are unable to continue, DO NOT remove yourself from the automobile unless it is on fire. Your automobile will be recovered as soon as safely possible.

## **12. Fuel**

Fuel must be 'Commercial Fuel' as defined by CAMS, Schedule G of General Requirements Section of the current CAMS Manual of Motor Sport.

# **CHAPTER 3 – Event Format**

## **1. Track Access/Pit Lane.**

- a) Entry to the track will be via the infield at all times.
- b) Competitors will assemble outside the infield pit garages as instructed by officials at the start of each session.
- c) Competitors must not leave their car unattended while in the staging lanes.

## **2. Competition Section**

- a) The Competition Section's (Judged Area) will be outlined at the drivers briefing.
- b) Drifting outside of the competition section may result in disqualification.

## **3. Judging Criteria**

For all drift events, the criteria for judging will be explained at the drivers briefing.

Judge's decision will be final, any correspondence, verbal, electronically etc may result in disqualification, at the discretion of the Clerk of course

## **4. Practice**

- a) An open Practice session will be held in relation to the Event Program.
- b) The Practice Session can be lengthened or shortened at the discretion of the Clerk of Course.

## **5. Competition Format**

- a) The drivers briefing will outline the battles for the day, each driver will be given a sheet with their assigned battles. There will be two ballot competitions on each layout. From these ballot competitions a points table will make Top 16 battle tree. The Top 16 will be ranked as 1 to 16 in points with 1 v 16, 2 v15 and so on. During the battles in this top 16 only, re-runs will be permitted.
- b) There will be one winner of the Big Entry Competition, the judging criteria will be outlined in the

drivers briefing.

- c) There will be one winner of the Driftkhana competition, the judging criteria will be outlined in the drivers briefing.
  - (i) *Passenger Rides Driftkhana*  
May be conducted in accordance with the CAMS MSRPA policy and documentation. These rides will be held at the Clerk of Course discretion

## **6. Vehicle Substitution**

A competitor is permitted to substitute the automobile entered with another automobile provided:

- a) The competitor must seek approval from the Clerk of Course.
- b) The substituted automobile must have prior passed scrutineering.
- c) It is during practice on the day, once battles commence there is no substitution allowed. The window for automobile substitution opens up again on the Sunday during practice prior to battles.
- d) Only one substitution is permitted.
- e) Two drivers cannot share the same automobile.

## **7. Tandem Battle**

A judged two automobile run. A maximum of two automobiles will be allowed on the course at any one time. A second, non-judged pair may be released behind the competing automobiles, providing that they do not interfere with the competing automobiles and minimum separation gaps are maintained. As each competitor takes a turn in leading the drift battle, the automobiles will swap positions only in the designated changeover area, at the conclusion of the first run.

## **8. Judging Criteria – Tandem Battles**

### **a) Summary**

During the tandem battles, the judge's emphasis will be on the chase automobiles emulation and proximity. The amount of proximity expected will be based on the speed and layout of the track and will be explained in each driver briefing. The lead automobile merely has to drive their best drifting run as outlined in driver briefing. The chase automobile must emulate the lead automobile while drifting as close as possible.

### **b) Lead and Chase**

A drift battle will consist of two judged runs. Each driver takes a turn in leading, with the computer-generated driver leading on the first run. At the end of the first run, the automobiles will swap positions in the designated changeover area.

### **c) Point Deductions**

#### **(i) EXCESSIVE USE OF HANDBRAKE**

The handbrake should generally only be used to make slight adjustments to the automobiles line during qualifying runs or to extend the drift.

#### **(ii) SPINS and STRAIGHTENS**

A complete spin or going off track will result in a score of zero. Points will be deducted for partial spins and straightens.

#### **(iii) OFF-TRACK AND CONES**

Going off track will result in a score of zero. Two wheels off the track will be deemed "off-track".

### **d) NOMINATION**

The three judges will individually nominate a winner and majority rules.

### **e) COLLISIONS**

Contact that does not affect the lead automobiles line or angle will not suffer a point deduction. In the instance that the impact causes the lead automobile to spin, the chase automobile will be penalized with a score of zero (0).

If the lead automobile spin's or loses the drift and slows down, and a collision is unavoidable, then the

chase driver will not be at fault. Because the lead automobile spun before the impact, then the lead automobile will be penalised with a score of zero (0).

#### f) COMPETITION TIME OUTS

A Competition Time Out or "5-minute rule" is used so that drivers can perform mechanical repairs in between the runs of a battle. It is for situations where the damage or mechanical problem is the fault of the other driver. A Competition time out can ONLY be called AFTER the first run of a battle. Each driver can take one (1) competition time out. A Competition Time out is NOT to change tyres, check tyre pressures, top up fuel or adjust the tune of a automobile. It is only to repair mechanical failures or exterior damage caused by the other driver during the run. There will be no competition time outs for general mechanical repairs.

### 9. *Changeover areas*

An area on the course prior to the starting line, suitably distant from the Judging Area to allow automobiles to adequately reduce speed, where competitors engaging in Drift Battle are required to swap positions. The area will be marked appropriately with highly visible cones on each side of the track and the location of the changeover area will be a minimum of 35m in length. The maximum speed in the changeover area is 25km/h.

### 10. *Penalties*

- a) Actions contrary to this Code, any Supplementary or Further Regulation, the directions of officials or any other inappropriate behaviour outside of applicable general CAMS procedures may result in penalties being applied.
- b) The penalty of exclusion from the event may be imposed upon competitors. Other, lesser, penalties may be imposed such as loss of a qualifying run, loss of a practice run or reprimand at the discretion of the Stewards, or when applicable, the Clerk of Course.

### 11. *Bench Warmers*

Bench warmers positions may be available at the discretion of the event organiser at a discounted rate. Bench warmers will receive entry to practice and non- competition periods. A bench warmer will receive competition points only if they are substituted prior to the commencement of the first battle of the weekend. If substituted after, the points shall be awarded to the other driver regardless of the outcome of the battle.

## CHAPTER 4 – Specific Circuit Requirements

### 1. *Pit Lane*

Smoking is not permitted in the pits at any time during the meeting.

Any person entering the pits must have the appropriate pass and must be attired in accordance with Article 4 of Schedule D of the current CAMS Manual of Motor Sport.

No person under the age of 16 years will be permitted in pit lane.

A white line in the pits has been used as a method of **demarcation** between the circuit proper and the working area of the pits. The circuit proper area of the pits must be kept clear of personnel at all times.

There is to be no loading of automobiles on trailers in the pit area during the event.

A speed limit of 40km/h will apply in the pit lane at all times.

### 2. *On Track Behaviour*

Burnouts are prohibited except for with the express permission of the Clerk of Course.

### 3. *Paddock*

The riding of motor cycles, bicycles or use of roller blades or roller skates or skate boards or any other similar equipment within the pit and paddock area is prohibited at all times.

The roads in the paddock are clearly marked with large yellow arrows and 15km/h circles, as well as a sign as you enter the paddock advising the direction of travel. All automobiles must travel in the

direction indicated on the roads and at a speed not exceeding 15km/h.

The disposal of fuel drums and tyres is the responsibility of the competitor. These items are not to be put in the bins at the Raceway and must be disposed of by the competitor outside the venue in a thoughtful manner and at the competitor's cost.

Only oil can be placed in the waste oil drums at the Raceway. Oil filters, coolant, brake and power steering fluids must be disposed of at the competitor's cost at a government approved collection center. For further information see [www.oilrecycling.gov.au](http://www.oilrecycling.gov.au)

To comply with the WA Sporting Car Club's risk management policy all electrical appliances and extension cords must have a current Australian Standards tag. It is not permitted under any circumstance to place an extension lead that crosses the roads and footpaths and public areas.

Drones may be used as approved by the WASCC, in compliance with the CAMS Policy on UAV
